For the best comfort, the seat is fitted with zig zag spring and highly elastic polyurethane foam. A backrest made of cushions of different sizes and headrests gives the sofa a modern and luxurious character.

The cushions are filled with allergy-friendly silicone with the properties of natural feathers and cut polyurethane foam. The unit is set on lacquered steel legs. In addition, the sofa has a comfortable and practical wooden table (oak veneer).

The modular design of the BIRDIE sofa will add character to any space, defining the point at which it is positioned as a focal point exuding elegance.
